

Citrus College

# Automotive Technology Technician Development Center

Citrus College's Technician Development Center has been recognized as one of the top programs in the nation.

Citrus College offers automotive technology courses from the most basic to very advanced levels. Courses prepare you for certificates in the Toyota Technician Training and Education Network (T-TEN), Technician Education Cooperative (TEC) and/or High Performance Institute (HPI) programs.

In-depth training with extensive hands-on experience prepares students for entry-level employment. If you are currently employed in the industry, our advanced-level courses can help you to sharpen your existing skills and build new skills to advance your career.

In the classroom, students learn the theoretical aspects of automotive service, diagnosis, and repair. You then apply what you have learned in lab exercises and live work in the automotive lab.

As a skilled technician, you may apply your skills and specialized knowledge in any of a number of career paths. You may work in a large dealership, at an independent garage, in a specialty shop, in fleet service, or even for a mass merchandiser. There are also opportunities to continue your education by transferring to a 4-year institution specially selected to partner with Citrus College.

The Technician Development Center at Citrus College has an excellent relationship with the automotive industry in the Greater Los Angeles area and built a legacy of graduates achieving success in diverse careers in automotive technology. Visit our webpages to learn more about the Technician Development Center!

## College Admission

Admission to Citrus College is open to high school graduates and any person 18 years of age or over.

To enroll, submit an application for admission online at:  
<https://wingspan.citruscollege.edu>

New students enrolled in five or more units and planning to earn an associate degree, a certificate of achievement, or a skill award must take an English and math skills assessment. In addition, new students who plan to enroll in English, mathematics or reading classes must participate in the skills assessment process.

## Concurrent Enrollment for High School Students

Some programs and classes are available to current junior and senior high school students. Interested students should contact their high school counselor or the college's Admissions and Records Office.

## Associate Degree

For an associate degree, a student must complete 60 degree applicable units of work and fulfill specific general education requirements, including electives and physical education. A cumulative grade-point average of 2.0 ("C") or above is required.

For detailed information, refer to the college catalog or consult a counselor.

## Transfer Requirements

Transfer requirements can be integrated with the associate degree option so that you may receive a degree at the time of transfer. **See a counselor for specific requirements for your major. Course requirements may vary among colleges.**
